EMEA Systems Engineering Director

Data, Lots of Data

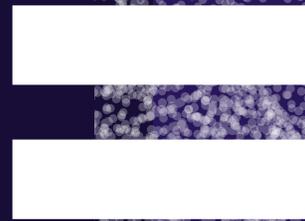

Financial AI Models

Compute Power

**Explosion of Financial Ai
Modeling,**

**Intelligent On Premise
and Cloud Storage**

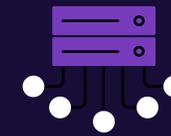

The Problem

Exponential growth in modern AI/ML, Life Sciences, Financial Services and cloud applications is fueling unheard-of data growth

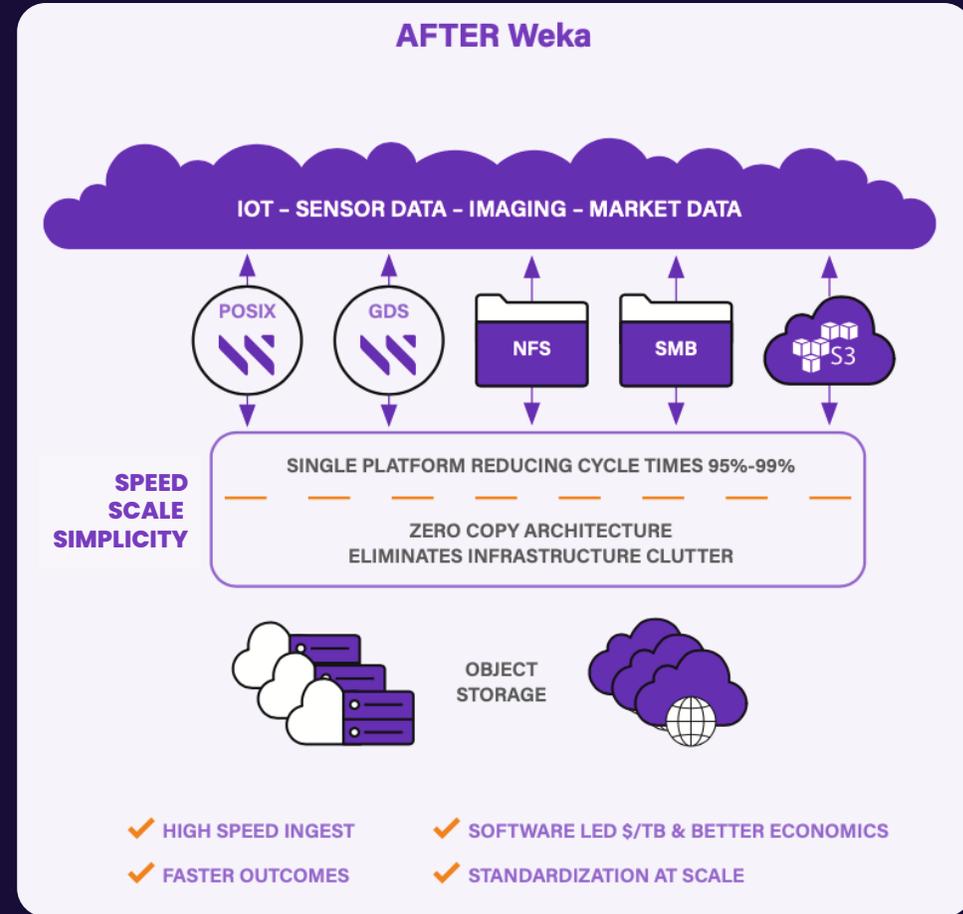

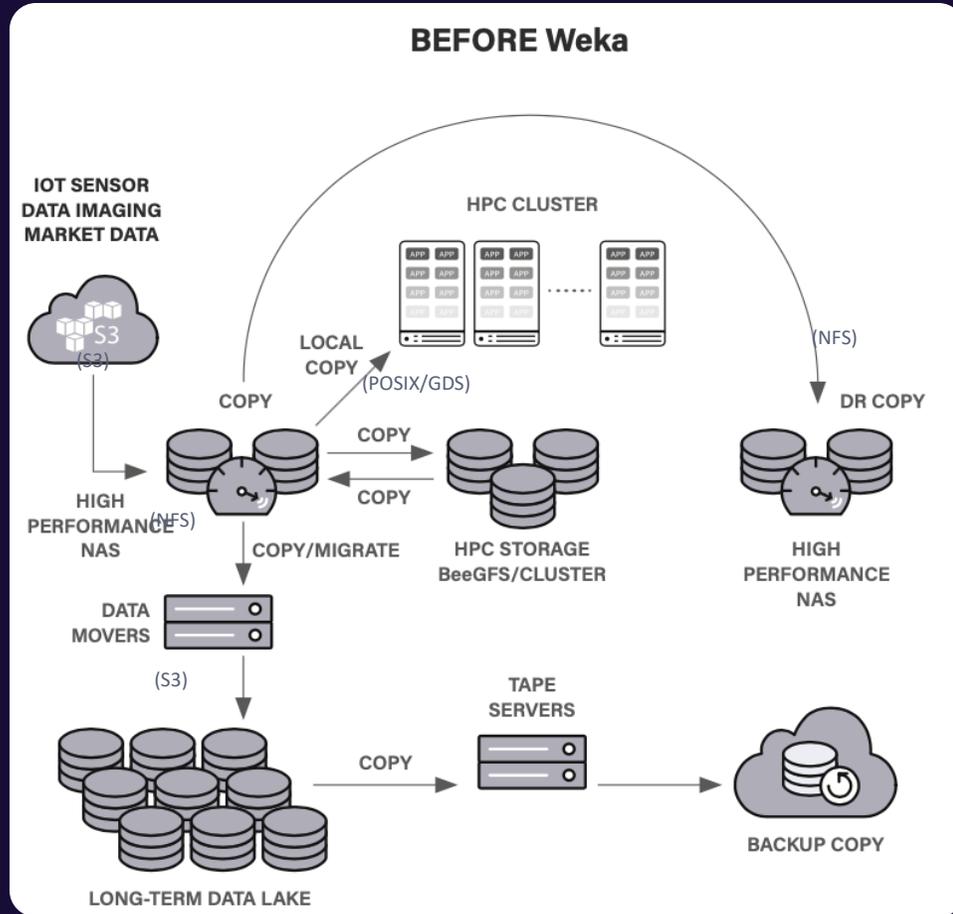

Organizations desire competitive advantage through digitalization by 10x faster processing of 10x bigger datasets

Traditional hardware and cloud storage cannot meet rapidly escalating requirements for performance AND scale across core, multi-cloud and edge data centers

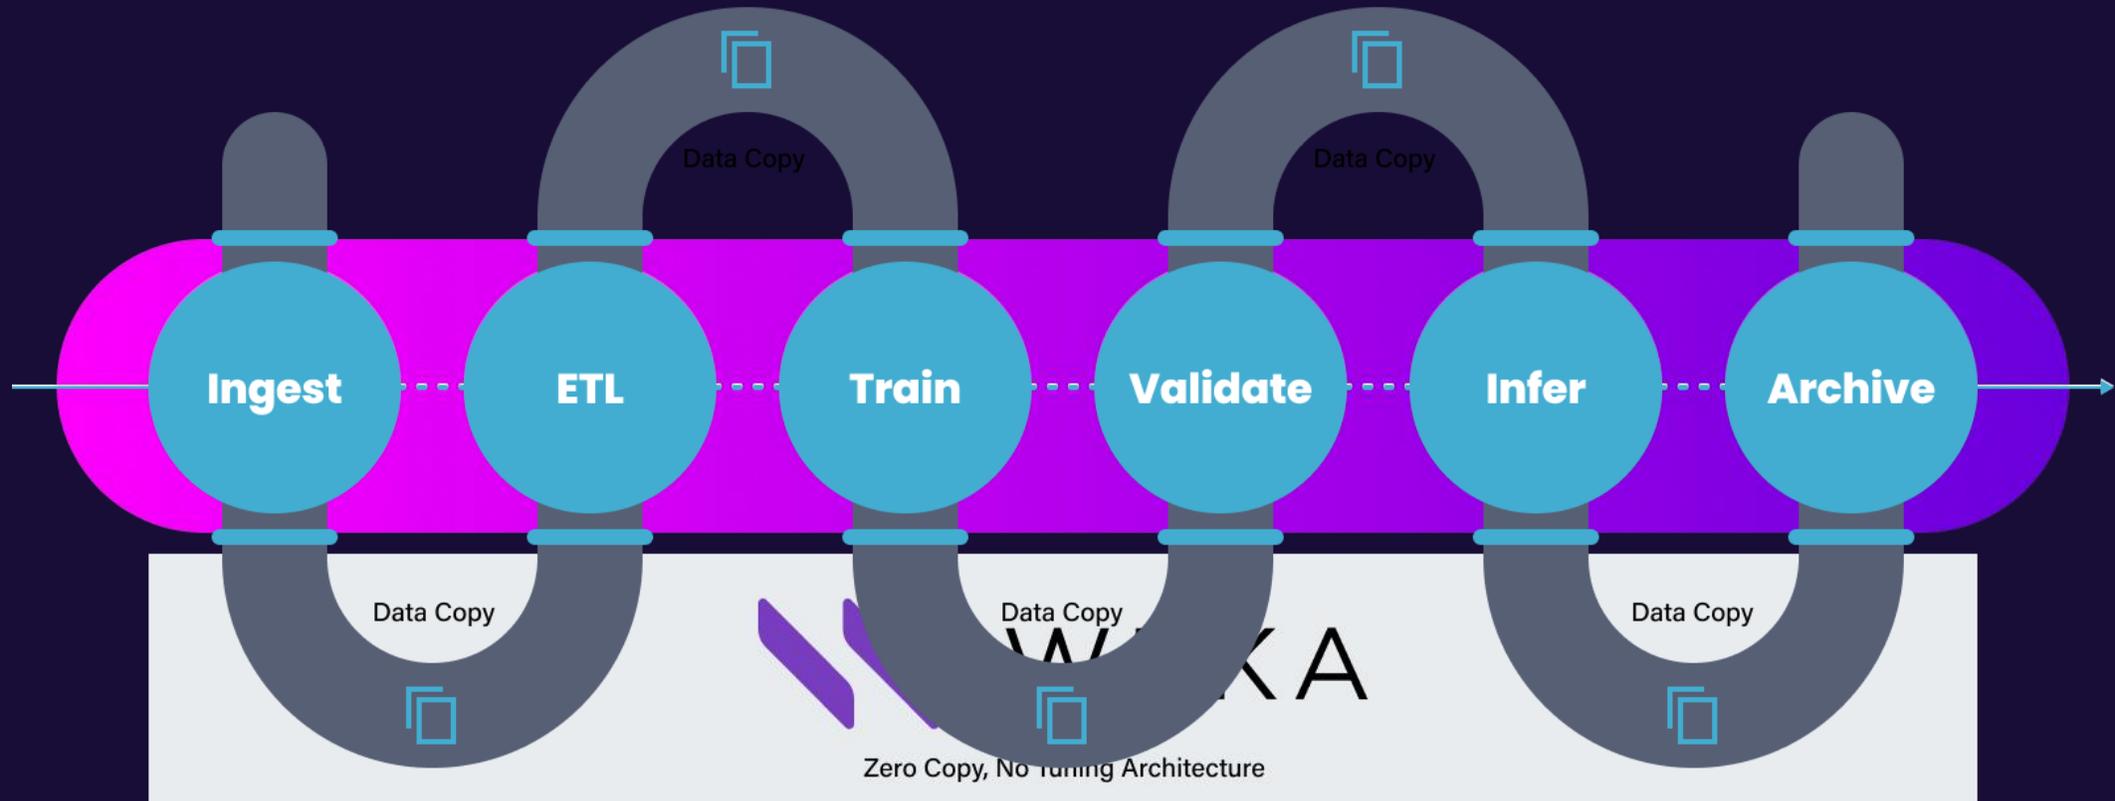

...A NEW APPROACH IS NEEDED.

Eliminate a Mish-Mash of Storage Systems

Infrastructure is Slowing Down AI Data Pipelines

70% of an epoch happens before the data ever reached the GPU*

Solves the AI Storage Challenges

Improves productivity and faster time to market and value

Accelerate large scale data pipelines

- Reduced epoch times
- Fastest inferencing
- Highest images / secs benchmarks

Run entire pipeline on the same storage backend

Multi Protocol Support

Faster than local storage

Not STAC Benchmarks

The move to the cloud is underway

Simple Workloads

Development & QA

Web & Mobile Apps

E-Commerce

Backup

“Impossible” Workloads

Large Scale

High Data Gravity

Ultra Performance

Need to “Feel” Local

Use cases: Cloud usage

Finance Modelling Choice

BETWEEN

Run Natively on
the Cloud

Tier and Reduce
Data Within a
Cloud

Move or Backup
to Clouds
(Hybrid)

Use the Cloud
for Data Tiering
(Hybrid)

Migrate or DR
Between Clouds

One Data Platform That Does It All

✓ **1 Tier of Storage**

✓ **1 File System**

✓ **1 Point of Management**

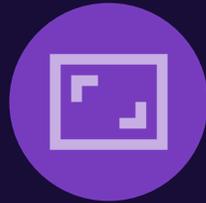

✓ **1 Copy of Data**

The Secret Sauce

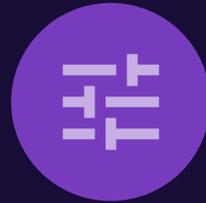

Cloud Native, Datacenter Ready

Common software stack deployable
across Core, Cloud or Edge
Datacenters

Unlimited Linear Scale

Seamless, non-disruptive scaling
from Tb's to 10's Eb

Auto-tuning Mixed Workload Support

World's fastest filesystem, supports
data pipelines with high I/O, low
latency, small files, auto-tuning,
mixed workloads & data portability

Class Leading Economics

Smart tiering between high-
perf/high-cost Flash and S3 deliver
class leading economics

40+ granted patents, 95 pending patents
